This report is intended to highlight the current problem with little popularity of the school museum and give ideas for improving the situation. The importance of this issue is essential. Students have to use the museum resources for their education.

lex Their interest in history helps them to keep engagement.
Learning something from the museum's resources can become their hobby. When they explore the information resources which are placed in the museum they rise their level of education, and

lex The school museum is placed in a small class^{room} on the second floor of the building. There are different pictures, vases, books and other historical items in it. Students rapidly can find the information they need from a huge variety of information resources. Two months ago three large boxes of stones and coins were sent from the Republican Museum in order to complete our collections. What is more, students can take part in workshops and develop new skills. However, the museum is ~~usually~~ rapidly empty, there are no students in it.

I am convinced that the school museum is not used efficiently because of its work hours. Students have only one hour after lessons and two hours before lessons in order to find the information they want. This limitation of time can be the problem, which has to be solved. The next reason is that the furniture in the museum is very uncomfortable. The old chairs, tables, bookshelves make this wonderful place unattractive for students.

146.
25 Oct } I would like to ^{give my} recommendations. First of all, it is necessary to change the schedule. Students should need more than three hours for their learning process. Secondly, we can find organizations which can provide our school museum with modern and comfortable furniture.

lex Our school society can be responsible for this.

sp I hope that my recommendations ^{would} be useful. I am convinced that ~~the~~ my recommendations will ^{raise} increase interest of students in our school museum.
